

COURSE APPROVALS AND STATE NUMBERS

Remember that some courses may require more than one instructor and not all courses are available at all times.

When we teach a course "on spec" (no sponsor paying for the expenses) our standard fee is \$150 per day per attendee, plus cost of books at wholesale for courses requiring book, and we reserve the right to cancel classes if less than an optimum number of attendees register.

Our standard (negotiable) fee to Associations, Wholesalers, etc. ranges from \$700-\$2,500/day/full instructor plus (preferably pre-paid) travel and hotel and shipping. Many courses have no shipping costs while others may have expensive shipping costs.

We are always open to negotiation. Our goal is to help the industry.

Courses typically include handouts but not textbooks. For courses where Lounging Lizard Publishing offers textbooks, these may be purchased for issue to all class attendees at wholesale discount. This offer requires the textbook for all attendees.

Courses typically use (but do not absolutely require) a computer projector and screen but a whiteboard (and dry erase marker set) is VERY welcome (Blank flip charts are the next best option). We typically can provide the overhead projector if given sufficient advance warning, if your A/V people at the site cannot, but the equipment does not fly or ship very well, and is best suited for areas within reasonable driving distance of PA/NJ/Delaware.

Course Title	Our #	NJ #	8	AL #	TN #
Alarm Systems Introduction	EST-100	TECBA-10-0022	8	APPROVED 08/2008	
ASSA Abloy™ Cylinder Service and Master Keying	CST-100	TECLD-10-0020	8	APPROVED 08/2008
